## PROFILE

---

Full-stack software engineer with experience designing and building web applications end to end, from requirements gathering through deployment. Specialised in RESTful APIs with Node.js and TypeScript, React and Angular front ends, and PostgreSQL and MongoDB data modelling. Hands-on experience integrating third-party services in production, including payments, push notifications and object storage.

## TECHNICAL SKILLS

---

- **Languages** : JavaScript, TypeScript, Java, PHP, SQL, HTML5, CSS3
- **Backend** : Node.js, Express.js, Sequelize, RESTful APIs, Socket.IO
- **Frontend** : React.js, Angular, React Native, React Query
- **Databases** : PostgreSQL, MongoDB, MySQL, Oracle, SQL Server
- **Cloud and DevOps** : AWS S3, MinIO, Git, GitLab, Bitbucket, Docker
- **Integrations** : Stripe, PayPal API, OneSignal, Postman
- **UI** : Material-UI, Tailwind CSS, Bootstrap
- **Tools and methods** : Jira, ClickUp, pgAdmin 4, Agile / Scrum

## PROFESSIONAL EXPERIENCE

---

### Full-Stack Developer

06/2025 – Present

*La Plateforme Digitale de Gestion (contract) — Tunis, Tunisia (remote)*

- Built and maintained backend services and scalable RESTful APIs using Node.js, Express and TypeScript.
- Designed and managed the database architecture on PostgreSQL with Sequelize, ensuring data integrity and query performance.
- Delivered a complete administrator dashboard in Angular, wired to the REST APIs, covering user management, transaction monitoring and real-time metrics.
- Integrated Stripe for online payments, including checkout, webhooks and subscription management.
- Implemented OneSignal for multi-channel push notifications.
- Deployed MinIO as a self-hosted, S3-compatible object storage solution for secure handling of documents and administrative files.

**Technologies** : Node.js, Express.js, TypeScript, PostgreSQL, Sequelize, Angular, Stripe, OneSignal, MinIO, pgAdmin 4, Bitbucket, Jira

### Full-Stack Developer (freelance)

02/2025 – 03/2025

*Various clients — Tunis, Tunisia (remote)*

- Delivered complete web solutions for multiple clients, from requirements gathering through deployment.
- Accounting automation platform (HBM Consulting): full-stack application automating accounting workflows, using Socket.IO for real-time messaging and Amazon S3 for secure file storage.
- E-commerce platform for a pastry business: responsive web application for online ordering of sweet and savoury products.
- Salon booking system: online solution for appointment booking and product ordering.

**Technologies** : React.js, Node.js, Express.js, MongoDB, Socket.IO, AWS S3, Material-UI, Postman, Git

### Web Content Writer and WordPress Specialist (freelance)

02/2025 – 03/2025

*Datamall Group — Nabeul, Tunisia (remote)*

- Managed and optimised the online content of the company website.

- Modified and improved site functionality against tasks assigned through ClickUp.
- Updated content and managed the company presence across social media channels.

**Technologies :** WordPress, phpMyAdmin, ClickUp

### **MERN Stack Developer (internship)**

02/2023 – 06/2023

*[Company name to be completed] — Monastir, Tunisia (hybrid)*

- Developed a dropshipping e-commerce application for both web and mobile devices.
- Delivered a smooth, consistent cross-platform user experience.
- Integrated secure PayPal payment processing in line with PCI compliance requirements.

**Technologies :** React.js, React Native, Node.js, Express.js, MongoDB, React Query, PayPal API, Tailwind CSS, Postman

### **Full-Stack Developer (internship)**

07/2022 – 08/2022

*Amilcar Petroleum Operations — Sfax, Tunisia*

- Designed an internal employee activity management platform with role-based access control for administrators, employees and HR.
- Digitised the request approval workflow, allowing employees to submit requests online for HR review and reducing paper-based processing.

**Technologies :** React.js, Node.js, Express.js, Sequelize, REST API, Bootstrap, Postman

### **MERN Stack Developer (internship)**

02/2022 – 05/2022

*École Pluridisciplinaire Internationale (EPI) — Sousse, Tunisia*

- Designed and developed ForceLearn, an educational platform with dual teacher and student roles.
- Enabled teachers to create and manage free and paid courses, with a centralised course access portal for students.

**Technologies :** React.js, Node.js, Express.js, MongoDB, Material-UI, RESTful API, Postman

### **Network Administrator (internship)**

02/2019 – 06/2019

*BG Group — Sfax, Tunisia*

- Set up and administered the local area network for a mid-sized company.
- Deployed a network monitoring solution tracking device status and traffic, with automated email alerts on system failure.

**Technologies :** Packet Tracer, PRTG Network Monitor, SNMP, PuTTY, Windows Server

## **EDUCATION**

---

### **Engineer's Degree in Computer Science (five-year programme)**

2020 – 2023

École Pluridisciplinaire Internationale de Sousse (EPI Digital School), Tunisia

### **Bachelor's Degree in Network Security Administration**

2016 – 2020

Higher Institute of Computer Science of Mahdia, Tunisia

### **High School Diploma (Baccalaureate), Computer Science track**

2016

Lycée Ibn Rochd, Chebba, Tunisia
